## WETS IN CONGRESS SHOWING MILITANT MOOD

### DROP POLICY OF CO-OPERATING WITH COOLIDGE

FORMERLY WORKED WITH THE  
ADMINISTRATION TO ASSIST  
ENFORCEMENT

PRESIDENT'S EXECUTIVE ORDER  
AROUSES IRE OF THE WET  
FORCES

By PAUL R. MALLON  
(United Press Staff Correspondent)

Washington, June 4.—The wets in congress have decided to abandon their policy of co-operating with the administration to adopt enforcement legislation and from now on they will fight.

Since enactment of the eighteenth amendment the wets have staged no serious protest against the expenditure of money or advancement of legislation to enforce the law. Their policy has been to give enforcement all possible leeway.

Senators Edge, republican, New Jersey, leader of the wet senate bloc, and Bruce, democrat, Maryland, his right hand man, announced today that in view of President Coolidge's executive order and the drastic provisions of the proposed Goff enforcement bill, the wets had decided that the time had come for resistance.

This means that the Goff bill which was written at the behest of Prohibition Chief Andrews to help him enforce the law in this coming year, will not pass the senate before adjournment.

"We do not wish to take one minute of the remaining time of this session to discuss prohibition unless we are goaded to it," Edge told the United Press in making public his decision, "but it the Goff bill is brought forward we intend to discuss it fully. I am not making any challenge or threat. We will not attempt a filibuster, but the subject is of such latitude that the entire question of prohibition will have to be discussed."

"I am convinced that the bill cannot pass at this session," he added. The special judiciary subcommittee was to meet today in hopes that a final report will be drawn up on the legality of the order.

A majority of the committee is expected to hold that the order was of "harmless" legal standing, and no more than an expression of policy.

### DECLARES COOLIDGE ORDER AS OF HARMLESS IMPORT

Washington, June 4.—A report holding that President Coolidge's executive prohibition order was of "harmless" legal import—and no more than an expression of policy—was submitted today to the judiciary committee of the senate by the subcommittee investigating the order.

The report was drawn up by Sen. Thomas J. Walsh, democrat, Montana, a member of the committee, and was discussed in a half hour session behind closed doors.

The committee found some minor objections to it and final decision was put over until tomorrow.

While the report was not made public, the United Press was informed that it confirmed to the views Walsh expressed on the floor of the senate when he defended the order against charges that it was illegal and a usurpation of state's rights by federal government.

The report, it was held, contended that Mr. Coolidge had no power to designate state, county and city officials as national prohibition agents because the congress had lodged the power of appointments with the attorney general and the treasury department. Hence, it continues, the order of the president had no legal standing and does not change existing law nor add to it.

The report does not go into wisdom of the policy of designating local officials as federal agents, it being contended that instructions from the senate were that it should only determine the legality of the order.

### SLAYER FREE AFTER PLEA OF SELF DEFENSE MADE

Minneapolis, June 4.—(UP)—Francis Joyce, who killed George Dubenstein in a downtown duel May 27, is free today after having been voted a no bill by the Hennepin county grand jury.

Joyce, who gave himself up to the police immediately after the shooting, claimed he acted in self defense. The duel was said to have been the outcome of a quarrel over the ownership of a gun.

### POLISH PREMIER AND HIS CABINET REPORTED RESIGNED

Berlin, June 4.—(UP)—Resignation of Premier Bartel of Poland and his cabinet was reported today in dispatches from Warsaw. Bartel formed a cabinet after the successful revolution led by Marshal Josef Pilsudski three weeks ago.

President Moscicki accepted Premier Bartel's resignation and requested the cabinet to continue to administer its duties for the time being.

### LOCKED GATES, BLOCKED DRIVES GREET MISTRESS

MRS. MIRIAM NOEL WRIGHT IS  
UNABLE TO ENTER TALIESEN  
ESTATE

SHE IS STILL LEGALLY WEDDED  
TO FRANK LLOYD WRIGHT,  
ARCHITECT

Spring Green, Wis., June 4.—Locked gates and barricaded drive ways today blocked the entrance of Miriam Noel Wright to the beautiful and expansive Taliesen estate of Frank Lloyd Wright, over which she once ruled as mistress.

Miriam, a talented sculptress and winner of art prizes, is still legally wedded to Wright, an architect of international fame.

But the couple has long been estranged and, according to Miriam, beautiful Taliesen, where once her word was the law, is now the love nest of Wright and a beautiful Russian dancer, Olga Milanoff.

Court action between Miriam and her husband was ended abruptly several weeks ago and late yesterday Miriam came to the gates of Taliesen to "take possession." She was armed with peace warrants for her husband and was escorted by a constable and a group of newspapermen. Wright was not there, however, and the gates and all other entrances were blocked. Wright's servants stood by and grinned at her attempts to enter.

Neither gates nor servants were impressed by the storm of rage which Miriam hurled at them. The gates held fast on their hinges against her shaking and kicking.

The servants were only amused by her torrents of abuse. The constable admitted he was unable to help her gain admittance and finally she retired to Spring Green.

Last night Wright returned to his estate and announced any further attempts on Miriam's part would again be repulsed. Miriam, however, insisted she would return and storm the gates.

Miriam claims she is still legally wedded to Wright and has a right to live in Wright's home. Wright contends Miriam deserted him, when he wanted her and now she can live elsewhere.

### ECONOMY PROGRAM IN CHURCH BUDGET

EXPECTED TO MEET WITH OPPO-  
SITION IN NORWEGIAN LUTHERAN  
CHURCH CONVENTION

Minneapolis, June 4.—(UP)—An economy program in the budgets for 1927 and 1928 was expected to meet with opposition today at the biennial convention of the Norwegian Lutheran Church of America.

A minimum of \$1,141,890.15 for 1927 and of \$1,132,890.15 for 1928, including a reduction of \$43,000 to bring the amount for foreign missions down to \$317,000, was recommended by the finance committee and immediately brought disapproval from the floor. The budget fixes the amount which the church guarantees, but does not limit expenditures.

A probable deficit of almost \$60,000 for the past fiscal year led the committee to recommend the reduction. The committee pointed out it had heeded the urge of the board of trustees to use the greatest care in voting the budget.

### FRANK O. LOWDEN ON A JOURNEY OF INVESTIGATION

LEAVES FOR DENMARK TO EX-  
AMINE CO-OPERATIVE FARM  
MOVEMENT

MENTIONED IN GRANGE STATES  
AS A POSSIBLE FARMER CAN-  
DIDATE FOR PRESIDENT

New York, June 4.—(UP)—Frank O. Lowden, agriculturist, politician and presidential possibility, is sailing tomorrow for Denmark to watch his pet hobby, co-operative farm movement in action. Lowden arrived here today from Chicago.

The former governor of Illinois, who within the last few months has risen in the esteem of the agricultural district of the middle west and who has been mentioned through the grange states as a possible farmer candidate for president in 1928, was silent as to politics.

"I am interested in agriculture and that is absorbing my whole attention now," Lowden said. "This visit to Denmark is just to further my knowledge of the co-operative farm movement. In Denmark, it has reached a greater height of success than any place else in the world."

Lowden parried all questions concerning politics and merely smiled when told of reports coming from Iowa that he was being boomed there as the farmers' candidate for the republican nomination for president in 1928.

He did not even care to discuss the agricultural situation.

"It is such a big question, so important that there is not sufficient time now to go into all the details in connection with it," the former governor said.

Lowden will return in two months from Denmark and will go directly to his model farm, Mississippi, on the banks of Rock river, in Illinois, where there will be a meeting of some 2,000 bankers and farmers at which time the question of farm relief will be taken up.

### BLACK CREEK, WIS., BANK WAS ROBBED OF \$2,000

2 BANDITS ENTER WITH LEVEL-  
ED REVOLVERS, FORCE TWO  
WOMEN INTO VAULT

PAIR THEN RUSHED TO LARGE  
CAR AND QUICKLY  
ESCAPED

Black Creek, Wis., June 4.—(UP)—Two bandits entered the bank of Black Creek here late yesterday, leveled their pistols at two women who were alone in the bank and after forcing them into a vault, escaped with about \$2,000.

Mrs. Ida Peters, wife of the cashier and Miss Meta Schneider, bookkeeper, were in the bank when the two men entered and ordered them to throw up their hands.

While one of the men forced the women into a vault, the other scooped up all the cash in sight and placed it in a bag. The two then rushed to a large car standing outside and drove away. The license plate on the car was said to be Illinois No. 6638.

As the men left the bank the burglar alarm sounded and within a short time several citizens had rushed to the bank to see the car speeding away.

### COURT MARTIAL ANNOUNCED NO VERDICT

Washington, June 4.—(UP)—Judge advocate general of the navy will be called upon to pass upon the findings in the court martial trial of Captain Charles M. Devalin, commandant of the Norfolk, Va., naval hospital, charged with drunkenness and misuse of navy whiskey.

The court martial at Norfolk adjourned late yesterday without announcing a verdict, a move generally equivalent to a verdict of guilty, although navy officials said it might indicate a plea for clemency, a review of the case, without recommendations or a divided court.

### THREE YEAR OLD FALLS INTO RIVER AND IS DROWNED

Cedar Mills, Minn., June 4.—(UP)—Playing with two other children, Melvin, 3 year old son of Mr. and Mrs. Fred Rathburn, fell into Crow river and drowned.

### DRY AGENTS IN FIVE RAIDS IN ST. PETER

EIGHT PERSONS ARRESTED,  
QUANTITY BEER AND  
ALCOHOL SEIZED

ONE PLACE NEAR TOWN YIELD-  
ED 100 GALLON STILL, 500  
GALLONS MASH

St. Peter, Minn., June 4.—(UP)—Federal prohibition agents made five raids in and near St. Peter Thursday, arresting eight persons and confiscating a quantity of beer and alcohol.

Those under arrest are Adolph and Bertha Radkem, Julius Siehmle, Fred and Amanda Dahn, Albert and Henry Rinkel and William Tolan.

On the Radke farm, agents seized 10 quarts and 848 pints of beer; on the Dahn farm, 72 quarts and 788 pints; at the Tolan place, 2 gallons of alcohol, and at the Rinkel place two pints of moonshine, in addition to discovering a 100 gallon still, 500 gallons of mash and 10 gallons of moonshine in a deserted residence.

### UNEXPECTED DELAY IN PAWUSKA TRIAL

ARGUE ADMISSIBILITY OF TESTI-  
MONY OF WITNESS IN THE  
BURKHART CASE

Pawhuska, Okla., June 4.—(UP)—An unexpected delay in the trial of Ernest Burkhardt to argue admissibility of testimony of John Mayo, partner of Ace Kirby, probably will prevent the state from resting today.

Mayo is expected to tell of death of Henry Grammar, implicated in a confession of the bombing of the W. E. Smith home for which Burkhardt is now on trial.

Mayo was said to have been driving the car when the accident occurred.

The state may put D. E. Johnson, Fairfax attorney, who handled the Smith estate, on the stand today, following Judge Jesse Worton's ruling on the Mayo testimony.

### U. C. T. MEN IN FRATERNAL RELATIONS WITH CANADIANS

Winnipeg, Man., June 4.—(UP)—United Commercial Travelers attending the international district convention in Winnipeg, have blown down the imaginary wall that separates the United States and Canada. The wall was officially declared down and out by speakers from both nations at a get-together session Wednesday night. Sir James Aikins, lieutenant governor of Manitoba, declared that Canada would be found shoulder to shoulder with the United States against a common enemy.

E. P. Yates, Minneapolis, grand councillor for Minnesota and North Dakota, hoped to see Old Glory and the Union Jack always flying together for the protection of human rights. The Travellers are holding business sessions this morning and a big round of entertainment is scheduled for the afternoon and evening.

### HIGHER WAGE PLEA OF RAIL MEN TO MEDIATION BOARD

New York, June 4.—(UP)—After two days of conference here between representatives of eastern railroads and trainmen's and conductors' brotherhoods, it was agreed to submit demands for higher wages and improved working conditions to a mediation board to be appointed by President Coolidge under the Watson-Parker railroad bill. More than 175,000 men are affected in the demand for wage increases, the direct cost of which is near \$60,000,000.

### FILIBUSTER IN HOUSE WEAKENS AFTER 13 HOURS

\$36,000,000 RIVERS AND HARBORS  
BILL APPROVED BY COMMIT-  
TEE OF WHOLE

FINAL VOTE ON THE MEASURE  
IS EXPECTED THIS AFTER-  
NOON

Washington, June 4.—(UP)—Tired, sleepy congressmen, filibustering against the \$36,000,000 rivers and harbors bill to prevent authorization of diversion of Great Lakes water into the Mississippi river, through the Illinois river, wilted early today after a 13-hour continuous session of the house and the bill was approved by the committee of the whole.

A final vote is expected this afternoon.

Ohio, Michigan and Wisconsin representatives led opposition to the Illinois waterway project, arguing that the 8,250 cubic feet of water a second authorized to be diverted into the Chicago drainage canal, endangered shipping, reduced water levels and damaged all lake front property.

Twice during the long session the presiding officer ruled on points of order that important sections must be eliminated, but in each case the house voted to overrule him.

Besides dilatory tactics to slow up the entire measure, because it included the Illinois river item, the opponents tried to eliminate the item. Their motion was defeated 139 to 58.

Representative Burton, republican of Ohio, who made the attempt, described the Illinois project as a "monstrosity," and Representative Johnson, republican, Washington, characterized it as a "return to the pork barrel."

The measure contains authorization for projects in inland and sea waterways all over the United States. It does not carry appropriations, however, and the money must be supplied later by acts of congress before the work can be carried out.

### GRAND JURY PROBING THE RING CASE

30 WITNESSES TO BE SUMMONED  
BEFORE JURY AT MINNE-  
APOLIS

SEARCH FOR RING IS NOW AT A  
STANDSTILL, RE-  
PORTED

Minneapolis, June 4.—(UP)—The Hennepin county grand jury today continued its examination of witnesses in connection with the murder of Mrs. Bertha Ring, wife of Louis J. Ring, missing Minneapolis business man.

Thirty witnesses are to be summoned before the grand jury in the course of its inquiry into the death of Mrs. Ring, who is believed to have been beaten and killed before her unclad body was thrown into Lake Pepin, near Ellsworth, Wis., six weeks ago. The search for Ring is at a standstill following denial that Canadian Royal Northwest Mounted Police are on Ring's trail in Manitoba as reported in dispatches Thursday.

### PICKPOCKET FINDS SELF IN HORNET'S NEST AT CONFERENCE

Minneapolis, June 4.—(UP)—A pickpocket who invaded a group of clerksmen attending the convention of the Norwegian Lutheran Church of America at the First Baptist church here found himself in a hornet's nest.

Rev. Ole Norby of Minneapolis, was the intended victim. As he entered the church a hand slipped into his pocket. Turning he grabbed a shabbily dressed man. Other ministers came to his assistance and a scuffle ensued. But the pickpocket broke away and ran into the street.

A few minutes later a man bumped into two policemen near the church. He was promptly arrested as a pickpocket. He said he was O. Holgrinson of Minneapolis.

### BATTLESHIP OF BRITISH ON WAY TO EGYPTIAN CRISIS

Malta, June 4.—(UP)—A British battleship was en route today from this Mediterranean naval base to Egypt, where the political crisis arising from the national victory at the polls is still threatening although no longer so potentially dangerous as at first. The battleship is the Resolution.

It is said here that additional naval vessels will probably not be sent to Egypt.

### MOSCICKI IS NEW PRESIDENT OF POLISH NATION

DULY SWORN IN AT PALACE OF  
FORMER POLISH ROYAL  
FAMILY

CEREMONIES WENT OFF WITH-  
OUT INCIDENT, SOCIALISTS  
REFUSE TO ATTEND

Warsaw, June 4.—Ignace Moscicki was sworn in as president of Poland today in the palace which formerly housed the Polish royal family.

The ceremonies went off without incident although fears for the safety of the principal, Giruses involved caused the public to be excluded. A communist member of the lower house marred the calm of the ceremony by booing after the ceremony and demanded the liberation of political prisoners.

It was noteworthy that the socialist deputies refused to attend the ceremony.

Berlin, June 4.—President Moscicki of Poland took the oath of office in Warsaw today, according to dispatches received here, indicating that the cabinet crisis which developed this morning necessitated immediate swearing in of the new president.

An earlier dispatch received direct from Warsaw this morning said that the administration of the oath had been postponed until Saturday.

### RAIL MAN DOES NOT TAKE KINDLY TO WATERWAYS

Minneapolis, June 4.—"If the money now spent in digging snags out of non-navigable rivers were spent in improving railroads, the reduction in freight rates would be astonishing," Fred W. Sargent, president of the Chicago & Northwestern railroad, said last night in a speech before the Grain Shippers' Association of Minneapolis.

Freight can be hauled more cheaply by railroads than by waterways, the speaker declared, if the added burden to the taxpayer for waterways maintenance is considered.

Sargent said the next 10 years would show a reduction of rates unless the railroads were tied down by restrictive regulation. These lower rates will be brought about by the improvement of agencies now existing rather than by the introduction of new agencies and by business and engineering skill.

### CLAIM BODY OF DROWNED DAUGHTER

LOUISE VEACH, 21, CARLETON  
COLLEGE JUNIOR, DROWNED  
IN LYMAN LAKE

Northfield, Minn., June 4.—(UP)—The parents of Marjorie Louise Veach, 21, junior of Carleton college who drowned in Lyman lake, arrived here today from Pipestone to claim the body of their daughter.

Miss Veach was in a canoe with three other students when it overturned. Marjorie Parks, Minneapolis; Bruce Niemeyer, Fairmont; and James Rogers, Aitkin, her companions, were saved only after they were exhausted in attempts to save Miss Veach.

The cries of the three attracted 50 students who responded at once and recovered the body of the Pipestone girl but efforts at resuscitation with a pulmotor failed after an hour and a half work.

### MINISTER IN REPORT FROM MONTEVIDEO

BOMB EXPLODED AT 8 A. M. TO-  
DAY, SAYS AMERICAN  
MINISTER

NO ONE INJURED, BELIEVED THE  
BOMBING IS WORK OF  
RADICALS

Washington, June 4.—(UP)—An attempt to bomb the chancery of the American legation at Montevideo, Uruguay, today was reported to the state department by American Minister Grant Smith.

"The bomb exploded at eight this morning in the vestibule building in which the chancery is located. No one injured. Telegraphing details later," Grant Smith reported.

It is believed here that the bomb attack is connected with the protest of radical organizations throughout Latin America against the recent decision of the Massachusetts supreme court denying a new trial to Nicola Sacco and Bartolomeo Vanzetti, convicted of murder.

Radicals all over the world charged that the conviction was a frame-up and was due to the men's political beliefs.

A similar attempt to destroy the American embassy at Buenos Aires, was made on May 17. Attempts have been made against American legations in Paris and other European capitals during the last three years while the Sacco-Vanzetti case has been on trial and appeal.

### 7 CONTESTANTS IN IOWA SENATORIAL NOMINATIONS RACE

By IRWIN I. FEMRITE  
(United Press Staff Correspondent)  
Des Moines, Ia., June 4.—Seven contestants today entered the last minute vote getting battles for the Iowa senatorial nominations, which will be decided at the state primaries June 7.

Leading the field, so far as interest is concerned is the bitter fight between Senator Albert Cummins, standpat republican, and former Senator Smith W. Brookhart, the progressive, who recently was defeated for his senate chair by a recount vote.

Political observers contend Brookhart's nomination will mean a large part of the Cummins voters will swing to the democratic ticket and that Cummins' nomination would mean that Brookhart supporters will vote for a democrat.

Daniel F. Steck, who defeated Brookhart in the general elections, won his senatorial seat through similar tactics, it is pointed out. The principal democratic candidate is Claude R. Potter, who polled 300,000 votes against Cummins six years ago.

The third republican candidate, Howard J. Clark, is urging voters to see through this democratic strategy and to refuse to nominate either Cummins or Brookhart.

### 3 BILLIONS PUT INTO NEW BUILDINGS

Chicago, June 4.—(UP)—Building during the first five months of the year represents an expenditure of almost three billion dollars, approximately half of what has been spent in home building, according to a nation wide survey made by the Indiana Limestone Quarrymen's association.

The higher living standards brought about the better wage conditions and the migration to the suburbs due to the motor car, has provided the underlying strength in home building, the report said.

Marked activity was recorded in school building.

### MISSING PRESIDENT OF BANK LOCATED

Hammond, Ind., June 4.—(UP)—Carsten Oistad, missing president of the First National bank of Madison, S. D., today was held under \$5,000 bond awaiting a hearing before Federal Judge Slick.

After the hearing Oistad will be removed to Deadwood, S. D., to stand trial on charges of embezzlement of funds of the bank.

## Simplicity Marks New Sports Frock

### Novel Fabrics Individualize Latest Golf and Tennis Outfits.

A few years ago we should have carefully apologized before presenting sports clothes that were only models from Paris. Indeed, says a fashion writer in the New York Herald-Tribune, it is well known that Paris' original sally into the sports field was undertaken in answer to a demand that came from without—there was no inner urge toward such clothes as far as the Frenchwoman was concerned. But times have changed—the city which once ran far behind New York and London in athletic prowess has now produced a Lengien, a Borotra and a Lacoste—the French sports frocks, which were once almost pathetic with their awkward frills and furbelows, have now become smart, chic and quite as utilitarian as the most meticulous British sportswoman could wish.

There was a lot of early season curiosity over the new spring sports clothes. So much had been said and written about the return of feminine fashions that nobody was quite certain as to just what type the sports frock would follow. In some quarters it was thought that, save for the fair athlete herself, the costume would be eclipsed—others temporized the question by sponsoring a modified sports costume—a hybrid affair that was faintly reminiscent of the gentle late Victorian. Each of these solutions is equally in error.

It is a fact that the sports costume had over-reached itself. Swept into a tremendous popularity in a single season, its vogue increased so spontaneously that it trod in paths which were clearly beyond its province. Smart demotelles at Nice and Palm Beach wore the same costume for tennis as for the dance. The Coconut Grove might have been a golf link a year ago, as far as costume was concerned; even the impeccable Riviera lost its sense of clothes balance. Indeed, you may trace the present jumper influence in the evening mode directly to the tremendous sports flare of last year.

#### Reaction Has Come.

Again such an unnatural fashion, a reaction was inevitable, and it has come. It affects, however, not the sports costume itself, but merely the extent of its vogue. Introducing the strictly sports frock into an afternoon dress is not to be considered smart this spring. As an indispensable item of every woman's wardrobe, it has also passed out of the picture—passed out amid the plaudits of many matrons who heartily disliked the style. It is no longer a prescribed item—its provinces are reduced, and yet in essence Paris has made the sports dress for the new season more appealing, more smart, more tasteful than ever before.

The few frills that are in evidence are necessary concessions to the flair for details so characteristic of the new spring mode. Yet for the most part the frocks are simple—perhaps

going suit and a coat. While at first glance they may appear a little too elaborate for the ardent golfer, a closer analysis places them clearly within the pale. Striking they are, each developed in an unusual Rodier fabric, but they are entirely too tailored in atmosphere to be classed as of the new feminine variety.

One characteristic is shared by the majority of the French models—the short skirt. Whatever the tendencies to lengthen the skirt in other realms of fashion, for sportswear, be you player or spectator, you must insist on a hemline that goes no farther than the knees.

To the Parisienne, Chanel leads wherever sports clothes are worn. Crepe and jersey cloth are favorite fabrics with her. She has some delectable jumper frocks for the golf links in beige, wine red and lacquer red, besides some in attractive shades of blue. They are made with a plain jumper blouse and plaited skirt and worn with a little straight leather jacket of a contrasting shade bound with the fabric of the dress.

A very pretty suit by Patou has a jumper in natural colored jersey wool,

made with a small plastron and narrow bow cravat. The plaid skirt is in beige, tone to red and brown, and is plaited, the plaits being stitched to within six inches of the hem.

#### Low Bottier Heel.

No costume is smarter than its slightest detail, and as you fare forth these spring days do not neglect the never more important incidentals of the mode. Purses, bags, gloves, shoes, all are necessary elements of chic, and while fashion is rather liberal as to silhouette, color and material this season, with the lesser details it is showing some decided inclinations.

One or two-strap shoes of kid and the simple pump in the same leather are worn by the majority of French women. The plaited kid shoe, so attractive because of pattern and color, is also popular. Sport shoes are fashionable among women of all ages for the morning promenade. On morning and afternoon shoes fully two-thirds of the heels are low, a sign that the "bottier" type of medium height is gradually replacing the Louis XV. As regards evening wear, gold and silver are still to the fore, while some very pretty new brocades in crayon colors have been seen. In the case of day wear, colors must as a rule be discreet; but for evening footwear one may revel in brilliant color schemes.

The handbag the Parisienne carries in the morning hours now, to do her shopping or for a simple walk, may be made of leather and rather big. Some are made of buckram and are as big as small traveling bags, and they are worn under the arm as a napkin is carried by a waiter. While handbags for morning are enormous, the bags worn with evening frocks are diminutive. They are just big enough to contain the most indispensable thing—a silk handkerchief, or the rouge, powder and lipstick.

#### Gloves, Turnover Cuffs.

Gloves are worn with turnover cuffs. The cuff one really can decorate at home, simply putting a stripe of bright silk on it or a strip of leather of a different shade. Walking shoes have always a sports character, with a low heel and a strong strap, with a buckle at the side.

Umbrellas, sadly needed so often in Paris, are very fanciful at present. The handles are made of ivory or wood, sometimes painted, sometimes carved in the shape of an animal's head. The handkerchiefs which a little while ago were so exceedingly tiny, go now to the other extreme and become huge.

The only evening coiffure one sees in these days is the classical bandeau which goes straight around the head. For young girls who dance a lot, a velvet ribbon with a bit of jewelry on it makes a simple and very tasteful headwear.

Bracelets are more than ever the fashion. You must wear quite a series of them, nearly from the wrist to the elbow. The smartest are shaded rings made of the same stone, as, for instance, of various shades of jade.

## Individual Note in Spring Styles

### Innumerable Ideas Offered, but Not All Have Been Given Approval.

If this season may be described in a word, variety must be the answer. Complex, even intricate designs have followed simple straight lines, and every opportunity is offered for originality and variation. Innumerable new ideas have been presented, says a fashion authority in the New York Times, but not all have been accepted by women of fashion. Never before have there been so many designs of different types from which to select one's individual model.

There was never a more felicitous opportunity offered the woman of fashion in which to express her taste and choose the type of costume she prefers to the utmost detail. She may have the waist of her gown in period style, a bolero of many variants or a blouse, a skirt, collar or sleeve of one style or another. Any or all of these she may select as she pleases and still be in the mode.

One especially attractive afternoon dress is of dark blue georgette with plaited bands of taffeta. The vestee is of flesh colored crepe de chine. With this outfit is worn a small black turban of malines and satin combined, with a tiny bow in the back.

At the moment it is the sleeve which appears to reflect the greatest number of variations in novelty of design. The arm has long been the classic model upon which have been built the lines of the prevailing fashion.

Afternoon Dress of Blue Georgette; Plaited Bands of Taffeta.

lon. Old prints, both French and English, reveal interesting and sometimes exotic sleeve styles. There has been the plain, "tailleur," known by this name, whether it was made of tulle or of velvet, so it followed closely the contour of the arm. There was the "bishop," most flattering when its full-gathered material was chiffon or any other sheer stuff having that elusive, caressing quality. This sleeve was gathered full into an armhole of generous width and was drawn into a band, usually of ribbon, at the wrist, with an edge left free to form a frill, originally an exact copy of the sleeve of a bishop's robe. The nun sleeve, cut almost straight, was wide at the top and the bottom. Of the same vintage as these were the bell shape, the angel sleeve and other models. The one among the distinctive styles of long ago, which has found little encouragement in revival, is the leg-o'-mutton, or the balloon sleeve. The others all seem to have appeared in the costumes of this season and are presented in the models of all the best artists.

#### Diagonals

The diagonal line is becoming a feature of the evening dresses now being designed. The neckline is diagonal, leaving one shoulder entirely bare. The line where bodice meets skirt is also diagonal and the hemline follows the same slant. The vogue is carried out in the coats by means of broad bands or belts of gold or silver brocade wound tightly over the hips.

#### New Shingles

If a woman wishes to crow over her rivals just now she immediately gets a "cock's comb" shingle. This coiffure is made possible by a part in the hair low on one side and a high permanent wave undulating sharply upward on the other. This really represents a saving since some hairdressers charge less for waving only the front, which is all that is necessary for the cock's comb.

#### Silver Lace Garters

Charming little garters which any girl can make herself are of silver lace with flat flowers made of different colored ribbons.

## FASHIONS

By HEDDA HOYT

New York, June 4.—(UP).—A summary of spring styles proves that almost every type of frock and wrap may be worn in good taste this season. Certain styles stand out above all other by their general popularity but one sees everything worn from loose Mandarin coats to form-fitting coats and from head-shaped hats to huge mushroom shapes.

We would say that it's a pretty close run between the straight-lined wraps and cape-coats. One sees about as many of one type as the other. The capecoat seems to run to dressy type or to sports type. That is, they are more frequently of plaid weaves or of heavy satins ornately embroidered, fut-trimmed or fringed. The tam-o-shanter hat is the jaunty shape which can be worn where the coat is of cape type.

In all wraps, lines about the hem are slender as there is no idea of hem-flares on wraps this season. Dresses, on the other hand, are distinctly flared or they have pleats across the front in most cases. The perfectly straight-lined frock is seldom seen either in dresses of street or sports type.

The afternoon dress often takes on the lines of the jumper sports dress with its slender bodice, low-placed waist line and front-pleated skirt. Low waist lines seem to be here to stay. Most women find them youthful and becoming and since women have ceased wearing tight fitting corsets waists and abdomens have increased in size so that the frock with the normal waist line give one a plump appearance. All effort to bring back curves has been futile as far as Americans are concerned. The Parisians have been striving to bring about a revival of the fitted frock with little avail.

As to materials, stripes, batik print effects, modernistic designs, and medium-sized printed designs in every conceivable material are fashionable this year. Plain colors are used mostly for evening or sports wear when they are used at all. For all occasions we find color blended

in costumes, frocks, and suits. Monotone effects are invariably enlivened by colorful scarfs or accessories. In summarizing the season's styles we would say that sleeves are long, collars are small, waist lines are long, skirts are short, hats are small, shoes are light-colored, costume colors are pastel and hosiery is parchment or light gray in shade. There are variance of color and silhouette but generally speaking women this season are as alike as Ford cars.

## HOW TO GO AUTO TOURING

LIBERTY magazine of June 5th has an editorial on "How To Go Auto Touring." It claims about four million Americans will take up this pleasant task this year.

There are certain simple rules which, it seems, require two or three tours and ten thousand miles of motoring to learn. The tourist who would travel with comfort and enjoyment may avoid much trouble by following these rules:

Have the car inspected carefully before starting. Repairs en route are slow and uncertain, inviting fresh disasters. Good tires and fresh oil save hours and temper. Every morning before starting get together and chant: "Oil, air, water, gas and grease."

Carry as little baggage and as light equipment as possible. A safe rule is to pack everything you think you need, then discard half of it.

Don't overcrowd the car and never invite "just one extra" to go along. Three persons in a five-passenger car, four in a six-passenger means comfortable riding. More mean cramped bodies, weariness, and discomfort.

Don't try for mileage. Schedule the day's drive with due regard to road conditions. Three hundred miles on concrete is easier than a hundred on rough roads, on both passengers and car.

Don't "pound the road." If you see a pleasant view, a shady dell, a cool rill, stop for a time. Fifteen minutes' rest will chase weariness, rest tired eyes, and do the car good.

Fix your destination before starting the day. If stopping at hotels, telephone for reservations and drive through the early dusk—the finest part of the day. If camping, don't hesitate to stop early and pitch camp. Building camps in the dark spoils trips.

Don't speed and don't drive by spurts. A steady gait, moderate enough to permit all to see the beauties of the country, covers more ground and saves repair bills. Respect the laws of each city and village. Avoid trespass against farmers and destruction of growing things.

Treat everyone you meet on the road with the same courtesy you would extend to neighbors at home. Hesitate and study carefully before picking up strangers. Regard each blowout as an opportunity to rest and cool the engine.

If these rules are followed, your tour will be a success, your vacation a delight, and the memory of days and nights on the road something to treasure through the winter.

## IT'S MAYOR "LARRY HO" NOW

MAYORS of cities like Winnipeg and St. Paul do everything possible to promote good will, to bring business to their towns, to create mutual understanding and interest.

Mayor Ralph Webb of Winnipeg gives ungrudgingly of his time and money and heads Pine to Palm tours so as to inform people that Winnipeg is a delightful town, that its climate is enjoyable and that Winnipeg will be glad to entertain tourists.

Lawrence C. Hodgson, famed as a poet and newspaper man, does his best to bring St. Paul to the favorable notice of the world. As a poet "Larry Ho" has an extensive circle of admirers. His style, in many cases, has the direct simplicity of that other great writer and newspaperman, the late Eugene Field.

Well, here is what Mayor Larry Ho of St. Paul wrote THE BRAINERD DISPATCH:

"Not alone because of deep personal obligations to the newspaper boys of the state for years of kindly friendship, but also because St. Paul is officially under obligations for past favors from the press of Minnesota, I desire to extend cordial greetings to you as I begin my administration as Mayor.

"Nothing is so important for any city as the development and maintenance of friendly good will and confidence with every other community of the state, and in the work of creating mutual understanding and interest, the newspapers of the state are the most influential and valuable and necessary agencies we have. They are performing this great service with unselfish loyalty and enthusiasm, and every good citizen should appreciate it.

"I hope I may be of some small use in helping to create and extend the general sentiment of mutual good will that alone can bind all of our people together in a common destiny.

"If I can ever be of any service to you personally, or to your community, I shall be most happy to serve."

## MORE FACTORIES FOR BRAINERD

WITH the lake development drawing so much attention to Brainerd, it follows naturally that there will be development in material lines in Brainerd. The town needs more payroll. There are rumors of railroad development of various kinds, and if only half of what one hears is true, this town will shortly witness a remarkable transformation.

People are engaging in business who are bound to succeed. Take the example of young Paul M. Jones, son of H. V. Jones, publisher of the Minneapolis Journal. Jones is going to get the business for his soda grill. He is advertising his business in the Minneapolis Journal so as to catch the Twin City tourist at the very start and head him for his place.

Many large realty firms are placing blocks of lake property on the market and working indefatigably to gain bonafide lake residents. Every resident located on a lake lot near Brainerd increases our local trade area and brings in so much more business.

With the lake trade constantly growing, we shall find factories locating here, boat builders, tourists supplies, tent makers, etc.

## AND STILL THEY COME

THAT the Brainerd Lake Region is due for all kinds of activity this year is noted from a United Press telegram which closely followed developments in other sections of northern Minnesota.

The second \$5,000,000 project for northern Minnesota was announced yesterday by H. C. Hotelling, secretary of the 10,000 Lakes association. Hotelling said a Minneapolis concern has purchased a large tract of land near Brainerd for a summer resort colony to be completed next fall.

IN one day at Brainerd two barbers, a doctor, an insurance man and an undertaker, all new people, came to town to engage in business.

## GORILLA CALLED WISEST OF APES

### Intellectually Easily Leader of the Species.

Of all the man-like apes which have been studied by psychologists, the gorilla probably is the leader intellectually. This is indicated by a series of tests recently completed on a young female gorilla by Dr. Robert M. Yerkes, professor of psychology at Yale university.

Doctor Yerkes recently returned from Jacksonville, Fla., where he spent six weeks testing the animal, which belongs to Benjamin Burbridge, Mr. Burbridge, an experienced hunter, captured the gorilla single handed in the forests of the Belgian Congo. On his last trip to Africa he caught four, but two died in Africa; one, which was taken to Belgium, has since died, and the other is Congo, the one that was studied by Doctor Yerkes. Probably it is the only example of its species, the mountain gorilla, that has ever been brought to the United States.

The chimpanzee, the most familiar anthropoid ape, has been the subject of many psychological inquiries. The Yale institute of psychology has several chimpanzees in its "primate laboratory," on which tests are being conducted, but, on account of the scarcity of specimens, the gorilla has never before been studied experimentally.

"One's first impression is that the chimpanzee is the more intelligent," said Doctor Yerkes, "but that is probably due to the temperamental differences of the two animals. The chimpanzee is the more emotional and impulsive; the gorilla is the more deliberate, and worked calmly and with better judgment, and I should expect that the gorilla would go further in the long run. I was able to work with Congo for hours at a time, and she stuck to her tasks. A chimpanzee by comparison tires quickly."

The animal weighs about sixty-five pounds, Doctor Yerkes stated, and is perhaps five years old. Although their average span of life is not certainly known, they probably attain the age of thirty or forty years. Congo displays great strength, for "when she tugged at me I felt as if something would break," he said. When tested with a spring balance, she pulled 160 pounds, which, considering relative weight, would be equivalent to a pull of four hundred pounds by a man. Despite this, however, the animal is quite gentle, in Doctor Yerkes' opinion, for, he said, "she doesn't realize her strength."

The methods used with the gorilla were similar to those employed on the other anthropoids. One consisted in arranging the animal's food so that it was necessary to pull on a rope to obtain it, and then, after this had been learned without aid, the rope was hooked at one end, and it was necessary for the monkey to unhook it before it could retrieve the reward. Several hundred feet of motion pictures were made of the ape while she was solving the problems, and these, in conjunction with many thousand feet which Mr. Burbridge made of the gorillas in their native haunts in Africa, will throw considerable light on gorilla psychology.

### To Clean Rifle Barrel

To remove lead from rifle barrels, if ordinary cleaning with a wooden plug and powdered pumice or finest emery are of no avail, wash the barrel well with caustic soda, then plug breach, and pour in quicksilver to cover the leaded portion. Shake well, let it stand for three or four hours, giving a good shake every half hour, then pour out the mercury, and you will find that the lead will come away on your cleaning rag. Acetic acid would do as well as the quicksilver or mercury, but is not so safe for expensive rifles, since there may be metals in the composition of the barrels that might perhaps suffer from being eaten into by the acid.

### Calf Tackled Big Job

A blind ambition to eat its way through a straw stack on the farm of John Bollinger at Bowdle, S. D., nearly cost a calf its life. The calf had been missing 32 days when Bollinger heard its plaintive bawling. After finding where the calf had entered, he dug from the opposite side and finally came upon the calf, still at work on the biggest job of eating it had ever tackled. It had no water during the 32 days and when led from the stack could hardly stagger to the barn, where a warm meal was given it.

### Welcome Relief

Professor Matthews was commenting on the increasing popularity of trashy and sentimental magazines. "It is the natural result of our high-pressure mode of living," he said, and added:

"I think little Johnny summed up the situation exactly when I found him reading fairy stories one day and asked him if he liked them.

"I'll say I do," replied Johnny. "There's so much that you have to believe that it's nice to read something that you don't have to."

### Recipe for Success

Nothing ventured, nothing gained. Is a saying with which all are familiar. The large majority of successful men assumed reasonable risk when they began their careers. Success results from a proper combination of brains, common sense and courage.—Grit.

## A Complex Problem

By C. E. McCORMACK

(Copyright.)

THE night was cold, bleak, and dark. "Ugh! what a beastly night to start on a long journey," said a traveler, "but it cannot be postponed. The business in hand will brook no delay."

He shivered in his fur coat as the high wind sent him scudding along at a rapid pace to the railway station, a miserable little place, as cold and cheerless as the night. One passenger, a pretty young woman, sat on a dilapidated bench and looked about her in fear and trepidation, as though she feared some monster would pounce upon her and devour her. Apparently she had never traveled alone before.

In about ten minutes the train pulled into the station and both travelers got on and went into the same car. The woman sat in front of the man. He gazed at her for a moment, then forgot all about her, so absorbed was he in thinking of "the business in hand." Presently, however, he became painfully conscious that something was wrong when he heard a half stifled cry, and looking at the woman, saw that she was sobbing.

"What shall I do?" he thought. "She is in great distress. I may, or I may not be able to help her."

He hesitated to speak to her, thinking she might resent what she considered impudent interference. As he sat pondering the matter, wondering what to do, the train suddenly stopped with a great jolt and the woman, affrighted, jumped up and screamed, "There! I knew it would happen. We've jumped the track!" And she continued to scream and scream.

The few passengers in the car, mostly men, looked at her and one of them laughed.

"Stop that laughing," commanded another one, jumping up, "or I'll break every bone in your body."

"Oh, you will, will you?" snarled the laughing one. "Well, come on, just you try."

"I said if you did not stop it I would."

During this melee the woman kept screaming, "Oh, I knew it would happen. I knew it. Why did they insist upon my taking this journey?"

The traveler, hoping to quell what promised to be a riot, cried out, "Silence, gentlemen, I beg of you, until we find out what is the matter with this lady."

"Mind your own business," they shouted, "the lady, doubtless, is capable of minding hers."

And they continued to argue. The battle of words was distracting. "This noise must be stopped," cried the traveler. At that moment the lights went out. This had the contrary effect to what he expected. They lady stopped frowning and the men stopped talking.

After a few moments of intense silence the lights flashed on again and the train started. The traveler looked at the lady. Now she was composed and tranquil. The men likewise.

"What a curious psychological problem has presented itself for my observation tonight," was the thought that flashed through his mind. "Why did that lady scream and take on so when there was no reason, apparently, and when there was, why was she composed?"

For the moment this problem drove all thought of his business out of his mind, and in trying to solve it he sat deep in thought. Then, "Eureka! I have it. The lady, no doubt, has been reading something that made so deep an impression on her mind that it became almost an obsession causing her much mental anxiety. The thought of the possible danger if the train did jump the track assumed such gigantic proportions in her mind that all other matter was relegated to second place. So, naturally, when she was obliged to set out alone on a journey she immediately began to conjure up all sorts of dire happenings. That was why she cried. And when the train stopped suddenly with a jolt, which is a common occurrence when traveling, her mind was so overwrought she immediately imagined the worst and began to scream. But when the light went out, which was an occurrence that might, justifiably, have caused fearful forebodings, she paid no attention to it. When the real cause for mental anxiety presented itself, the unreal cause became apparent at once, and she saw how foolish she had been."

At this moment the lady was making desperate efforts to control her mirth. But to no avail, after a short struggle it had its way and a merry laugh rang out in which everybody joined. Whereupon she said, "Fellow-passengers, I owe you an apology for causing so much disturbance. But I wish to sound this note of warning. Don't ever read a book like this," and she held it up, "before starting on a long journey. If you are sensitive it may have the same effect on you that it had on me. It is responsible for what might have been a great misfortune, but, happily, turned out all right."

All the passengers crowded around her to see the book. It was entitled "The Railroad Wreck." Again the car resounded with hearty laughter.

And now comes the most interesting part of this story. As a result of that chance encounter the lady and the traveler, Matthew Blake, Esq., came to the wise conclusion that this world would be a dreary old place to live in if they did not share one another's joys and sorrows.

Fairfax Production

Marion Fairfax, world's only woman screen producer, selected a most admirable cast to usher in her first production, "Old Loves and New," which is now showing at the Lyceum theatre.

The ever popular Lewis Stone heads the cast of this adaptation of E. M. Hull's celebrated novel, "The Desert Healer."

"Hands Across The Border" Fred Thomson's Latest at Lyceum

Sparkling with comedy, throbbing thrills and agog with action, "Hands Across the Border," Fred Thomson's most recent starring vehicle, swings into the Lyceum theatre Saturday. The picture is heralded by critics as the best thing the popular western star has done, wherefore F. B. O. expects that it will leave the public limp with laughter; which it probably will!

### Ancient Eastern City

Iconium was in Asia Minor and here St. Paul and St. Barnabas preached in the year 58 A. D. Soliman, the eljuk, founded a kingdom here in 1074, which lasted until 1307, when it was conquered by the Turks. The place was held by the Crusaders from 1097 to 1190. This part of Asia Minor is still in possession of the Turks.

If you know the baker of the bread you buy, or depend on the name on the wrapper—you know the bread is wholesome, with the fresh flavor you like. If you don't know the baker or name on the wrapper, yet buy that bread, you take a chance. Bread costs only a few cents. You can afford that chance.

Yet suppose instead of bread, it's an expensive watch. Or suppose instead of something that must taste good to be good, it's a medicine that must be pure in a way you can't taste—or else do actual harm. You'd want to be sure about that watch. You'd have to be sure about that medicine.

There's one way to be sure. Buy only the widely advertised. Whatever is thrown open to unlimited public test is safe for you to use the way it is recommended for you to use. Names you can depend upon stand behind it. Thousands are finding those names dependable and their products strictly true. That's how they continue to be put on printed pages before you. ## BEAUTIFY COURT HOUSE GROUNDS

County Auditor, C. W. Mahlum And  
Other Workers Set Out  
Plants

### WILL BLOOM BEST IN JULY

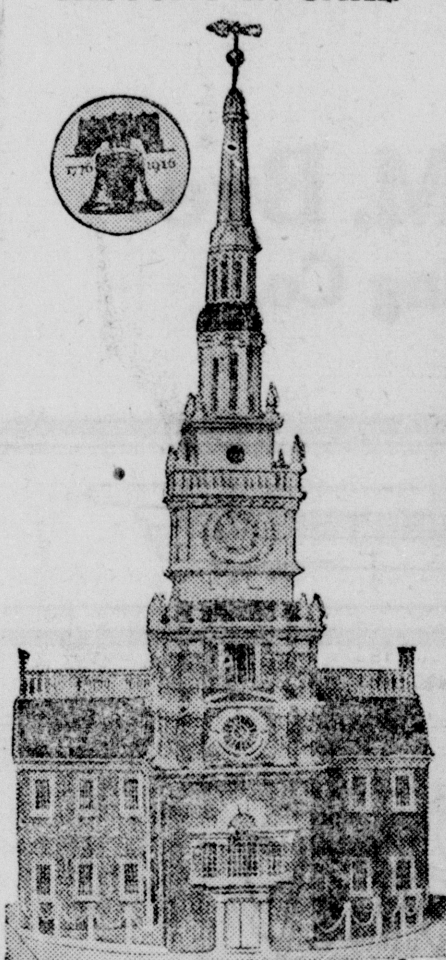

Ought to Prove Pleasing to Eyes of  
Tourists and Resi-  
dents

The county court house grounds have been improved to the extent of flower beds which have been planted in front of the building. County Auditor C. W. Mahlum, in conjunction with several other workers labored an entire day, planting, arranging and selecting the flowers. According to Mr. Mahlum the bed will be at its best in July, and ought to prove pleasing to both the eye of the tourist and resident.

Delphinium which are perennial and calendula, which will in time become a mass of green, forms the nucleus of the plot. Snap Dragons form an inner half circle and "Rose of Heaven" Petunias which possess a pinkish hue and gold calendula edged with blue ageratum form an outer half circle. The entire is then inclosed with a "lace work" edging or rainbow of lobelia and sweet allysum, the pots of gold at the end, being clusters of mixed robens.

Some of the plants were taken care of by Mr. Mahlum and the rest were donated by J. J. Untereker.

### HISTORY IN CAKE

This replica of historic Independence Hall in Philadelphia is a fine example of the baker's art. It was made by the chef of one of Philadelphia's leading hotels to advertise the Sesqui-Centennial International Exposition, which will open in that city June 1 and run to December 1 to celebrate the 150th anniversary of American Independence. The "State House" stands on a table at the entrance to the main dining room of the hotel.

## STUDY COURSE IN PRIMARY ELECTION CAMPAIGN PROBE

Washington, June 4.—(UP)—The course of action to be followed by the special senate committee directed to investigate primary election contests throughout the United States was discussed when the committee was called into session today.

Senator Reed, democrat, Missouri, an instigator of the inquiry, whose experience as a senator-prosecutor of similar inquires has won him a national reputation, is chairman.

The committee is expected to decide the Pennsylvania primary should first be inquired into. The Illinois primary may be scrutinized next. Members of the committee do not desire to begin hearings until after the senate has adjourned.

Washington, June 4.—The senate primary campaign expenditures committee decided today to begin a probe of the Pennsylvania primary next Wednesday.

Executive chairman and treasurer

ers representing each of the three candidates in the senatorial race will be called before the committee in Washington to tell how much money was expended and for what purpose.

Representative William S. Vare, wet; Senator George Wharton Pepper, dry incumbent, and Governor Gifford Pinchot, dry, were the three candidates represented in the republican race which was won by Vare. Reports have been given credence on the floor of the senate that perhaps millions were expended by the candidates.

## SELECTING JURY IN DURKIN CASE TEDIOUS MATTER

Chicago, June 4.—(UP)—Taking of testimony in the trial of Martin J. Durkin, Chicago's most handsome killer, still appeared remote today as the tedious work of selecting a jury went into its fourth day. Only three men have been found acceptable to both state and defense and attorneys admitted it might require a week longer to obtain 12 jurors. Durkin is facing trial on the charge of murdering Federal Agent Edward C. Shanahan. If acquitted on this charge he may be brought to trial on two other murder counts.

# HARD TO DOPE OUT "NATURAL" IN BOXING

## BROOKLYN CARD FALLS VERY FLAT

DELANEY-BURNS AND MORGAN-  
BOOTS LOOKED GOOD ON  
PAPER

BUT THE FIGHTS PROVED UNEV-  
EN MATCHES AND WEARIED  
THE CUSTOMERS

By PAUL W. WHITE  
(United Press Staff Correspondent)  
New York, June 4. — Trying to  
dope out a "natural" in boxing is  
one of those entertaining pastimes  
that drives promoters to strong  
drink.

No matter how well matched two  
fighters appear on the record books,  
they may get in the ring and pro-  
vide an uneven spectacle that reaches  
the limit of utter boredom. The  
case in point was the card at Ebbetts  
Field, Brooklyn, last night.

The two feature bouts between  
Jack Delaney and Tommy Burns,  
light heavyweights, and Tod Morgan  
and Steve "Kid" Sullivan, junior  
lightweights, has a great deal in  
their favor on paper. But the fights  
themselves were so uneven that the  
hardened customers yawned and the  
softer hearted turned their faces  
from the carnage.

Delaney stopped Burns in the sec-  
ond round of their scheduled 10  
rounds. The referee stopped the  
bout in order to avert a massacre.  
While Delaney was expected to win  
from the Detroit, none anticipated  
such a hopelessly ill-matched affair.

The scheduled 15-round go be-  
tween Morgan, who is the world's  
champion of his class, and Sullivan,  
who once held the title, was another  
dud. Morgan made his first appear-  
ance in the east and demonstrated  
that they raise good boxers in Seat-  
tle. He was so much better than  
Sullivan that there was nothing to it.

It is the uncertainty of apparently  
great matches that prevents ap-  
plause over the signing of Joe Dun-  
dee and Mickey Walker to oppose  
each other here on June 17. This  
bout, which would settle the runner  
up wrangle in the welterweight di-  
vision, on its face looks like a "nat-  
ural" if ever there was one.

But no amount of search through  
records or visits to training head-  
quarters can supply any adequate  
idea of what two boxers will do  
when they climb into the ring.

## AMERICANS ARE NOT FARING WELL IN FRENCH TENNIS

By HENRY L. FARRELL  
(United Press Staff Correspondent)  
Paris, June 4.—Americans fared  
indifferently as play in the interna-  
tional hard courts championships  
was resumed today.

Mary K. Browne of California de-  
feated Miss Defandes De Danoet of  
France, 6-3, 6-1, but one of the first  
women's doubles matches of the day  
brought defeat to the invaders.

Mrs. Marian Zinderstein Jessup  
and Miss Isabella Mumford lost to  
Mme. Danet and Miss Rene Vlasto  
of France 3-6, 6-3, 6-4.

The French pair were steadier and  
Mme. Danet's brilliant lobbying was  
a factor in the French victory. She  
was particularly strong with her  
backhand.

Today's weather was much im-  
proved. The end of the rainy spell,  
which had slowed up the program  
for two days, was predicted.

Howard Kinsey advanced in the  
men's singles by winning a hard five  
set match from Cattaruzza, the  
Argentine star, 5-7, 1-6, 7-5, 6-1 and  
6-1.

Mlle Didi Vlasto played one of  
her best games of the season in  
triumphing over Mme. Scherbatsky  
of Holland, 6-3, 6-0.

Suzanne Lenglen was invincible  
today and played her usual flashy  
game to defeat Mrs. Shephard Baron  
of England in straight sets without  
the loss of a game.

## BABE RUTH IN QUEST FOR HOME RUN RECORD

New York, June 4. — (UP)—  
Babe Ruth's quest for a new home  
run record has progressed favorably.

With 18 homers, two gathered  
yesterday in successive turns at bat,  
off Pitcher Harold Witte, of the  
Red Sox, he is five games and eight  
days ahead of his 1921 schedule.

Five years ago when Ruth's sea-  
son record of 59 home baggers was  
set up he collected his 15th homer  
on June 11 in the Yankees 51st  
game. Yesterday was the 54th  
game of the huggens.

Columbia Practices for Regatta  
New York.—Columbia oarsmen left  
today for Poughkeepsie where they  
will practice for the regatta on June  
28. The varsity, junior varsity and  
freshmen crews made the trip.

## VACANT LOT NEAR THE PARK THEATRE TO BE USED AS FIELD

Permission has been granted the  
hoss shoe heavers of Brainerd the  
use of the vacant lot near the Park  
theatre for their games this season.

For some time past now the en-  
thusiasts have been practicing their  
game in back alleys and they are  
now ready to show their wares to  
the public.

The vacant lot will be staked out  
and tournament games started. Plans  
are already under way for a hoss

the oldest race man in the country.  
Thomas Cheek, 101 years old.

Short Story Wins the Oaks  
Epsom Downs, England — The  
Oaks, known to turfdom as "the  
miniature derby," was won today by  
Short Story from a great field of  
England's best three year old fillies.  
The winner was owned by Lord As-  
tor. D. Sullivan's Resplendent was  
second, and Lord Astor's Gay Bird  
finished third.

## Watching the Scoreboard

Yesterday's Hero—Babe Ruth, whose  
two homers in successive turns at bat  
helped the Yankees take their fourth  
straight, defeating the Red Sox, 6  
and 5.

The Braves gathered 14 hits, 12 off  
Donohue, and defeated Cincinnati 12  
to 5.

Pittsburgh beat Chicago 3 to 1 and  
crowded the Cubs out of second place,  
when Yde won his own game with a  
double in the ninth.

Three runs in the eighth enabled  
Detroit to win the third game of the  
series from Cleveland, 3 to 2.

The Giants made it four out of five  
from the Phillies in a game featured  
by 32 hits, 16 to each club. New York  
won 10 to 5.

Danforth for the Brewers held the  
Saints safe and the Milwaukeeans took  
their 10th straight game, third straight  
from the Saints in the present series,  
6 to 3.

The Blues, aided by Branom's  
homer, downed the Millers 8 to 6. It  
was Branom's third circuit clout in  
two days.

The Colonels made it three straight  
from the Hens, pounding three pitch-  
ers for 15 hits and winning 11 to 6.

The Indians made it three straight  
from the Senators, winning 4 to 1.

## MURDER TRIAL OF JOHN YOHANEK OPENS AT MANITOWOC

Manitowoc, Wis., June 4.—(UP)—  
After little time had been spent in  
selection of the jury, the murder  
trial of John Yohanek, 80, charged  
with first degree murder, in con-  
nection with the death of his wife,  
opened in circuit court here today.

Emil Hussar, undertaker at Kel-  
lnersville, where the murder is al-  
leged to have taken place prior to a  
fire, which destroyed the Yohanek  
home, was the first witness called.

## Y. M. C. A. GIVES SEALS ITS FIRST DEFEAT, 4 TO 1

SANDGREN PITCHES FINE FOR Y.  
ALLOWS 2 HITS AND  
WHIFFS 12

ANDERSON HAS PERFECT DAY,  
WITH 4 HITS IN 4 TRIPS  
TO PLATE

Game Tonight, 5:30 P. M.  
N. E. vs. B. A. C.

The Y. M. C. A. last night set the  
brakes on the Seals machine, and  
stopped their straight run of vic-  
tories with a 4 to 1 setback. Sand-  
gren, hurling for the Y. M. C. A.,  
was in rare form, and with almost  
perfect support on the part  
of his teammates, let down the  
league leaders with but two hits,  
and sent twelve back to the bench  
via the strikeout route.

Along with Sandgren's name, the  
name of Anderson must be emblaz-  
oned in large letters. Anderson had  
a perfect day at bat, making four  
hits, one a double, in four trips to  
the plate, scoring two runs himself  
and driving in the other two.

The fourth inning was the disas-  
trous period for the Seals. Up to  
that time the score was a tie at one  
all. J. Thompson started the in-  
ning with a single, and Bernard fol-  
lowed suit. Sandgren flied out to  
Lowe, but Anderson lined a double  
to right center, bringing in two  
runs, and scored a moment later  
when Bollens doubled, Ware losing  
the ball in the sun.

Only three men faced Sandgren in  
five innings out of the seven, and in  
the other two innings only four men  
came up. Ware singled in the sec-  
ond and came home when Hanson  
overthrew third base after Bower-  
man's sacrifice. In the fourth frame  
Ringer singled with one out, but  
died at first. These were the only  
men to reach a base for the Seals.  
Sandgren struck out seven men in a  
row, the last two in the fifth inning,  
three in the sixth and the first two  
in the seventh.

Stevens allowed eleven hits, and  
struck out six. The Y players fell  
on his offerings with a vengeance.

## FRENCH SENATE RATIFIES THE LOCARNO PACTS

Paris, June 4.—(UP)—The sen-  
ate this evening ratified the Locarno  
agreements for European peace and  
arbitration by a vote of 272 to 6.

Former President Millerand and  
some others of the right sought to  
defer ratification by rousing the  
traditional French distrust of Ger-

Wentworth Club, Virginia Water,  
England, June 4.—American profes-  
sional golfers were trailing their  
British opponents at the end of the  
first 18 holes in the first day of Ry-  
der cup play today. The morning  
matches ended with the British stars  
ahead in three matches, Americans  
in one and the fifth all square.

Today's play was devoted to two-  
ball foursomes, the contestants alter-  
nating their shots, with singles  
matches set for tomorrow.

The Ryder cup occupies the same  
position in professional golf as the  
Walker cup in amateur golf.

Jim Barnes, the American, who,  
last year won the British open cham-  
pionship, was one of the contestants  
and two former champions, Walter  
Hagen and George Duncan, were also  
entered.

Results of the morning round play:  
George Duncan and Abe Mitchell,  
British, were leading Jim Barnes  
and Walter Hagen, 4 up.

Aubrey Boomer and Archie Com-  
pston, British, were leading T. D.  
Armour and Joe Kirkwood, 1 up.

George Gadd and Arthur Havers,  
British, were 5 up on Bill Melhorn  
and Al Watrous.

Cyril Walker and Freddie McLeod  
were all square with Ted Ray and  
Fred Robson.

Joseph Stein and Emmet French,  
Americans, were 1 up on E. R. Whit-  
comb and H. C. Jolly.

# Fitch takes the 'Sham out of Shampoo

OH, BOY! There's a delightful, refreshing, cleansing kick in a FITCH SHAMPOO! The Fitch Shampoo dissolves and removes from the very first application every particle of dandruff and foreign matter, leaving the scalp clean and healthy and the hair soft and fluffy.

The tonic in the Fitch Shampoo actually penetrates into every hair follicle, thereby invigorating the growth of hair. The lather is then gradually created by the application of water and, when rubbed out and rinsed, the lather carries with it all dirt, dandruff and foreign matter, leaving every pore open and functioning as nature intended.

Know the joy of a really clean scalp. Make your next shampoo a Fitch. Buy a bottle at any toilet goods counter or write the F. W. Fitch Co., Des Moines, Ia., for free trial bottle. If Fitch's isn't all we say, take it back and your money will be refunded.

(Copyright, 1925, F. W. Fitch Co.)

After the Shampoo, there is a FITCH TONIC for every hair and scalp condition!

If the scalp has been sore and itchy, use FITCH'S IDEAL TONIC. If your hair is inclined to be oily, use FITCH'S QUININE TONIC or FITCH'S TONIQUE SUPERSE (Both are Antiseptic and Astringent).

If you want the hair to be in place, use FITCH'S LA FOMA TONIQUE.

On Sale at All Toilet Goods Counters in Your Con- venient Store for Home Use. Applications at Barber Shops and Beauty Parlors.

# KING OF GYPSIES ILL AT BRAINERD

5,000 of His Followers Mourn Illness  
of Their King, Miller  
Bimbo

AT ST. JOSEPH'S HOSPITAL

Gypsy Camp Located West of Mississippi River Bridge Near  
Laurel Street

Five thousand gypsies of the Bimbo tribe scattered by the four winds to all parts of America are mourning today the sickness of their king, Miller Bimbo who is all with pneumonia at the St. Joseph's hospital in Brainerd.

Seriously ill for the last few days the throned monarch of the Bimbo tribe is today reported to be much improved in health and the tribe here are waiting for him to lead them to St. Paul.

The Dispatch representative had the delightful experience this morning of visiting the gypsy camp located west of the Mississippi river bridge on Laurel street.

The camp is located off the main highway in a dell where tall pine trees abound. Three gypsy maidens, and it might be said they were quite good looking and interesting to talk to, were seated on pine needles, busily engaged in picking feathers from a large bag to make pillows with. Each were decked out in the full gypsy regalia, which custom dates back to centuries. They eyed their visitor quizzically and to his cheery "good morning" stopped working and asked him if he had word regarding their king's health.

Much controversy reigned in the camp for awhile regarding the publishing of any story regarding them or their king but after a general conference by the head tribesmen in their own language they decided to answer a few questions.

Yes, Miller Bimbo who is sick in the St. Joseph's hospital is really a king. He is all powerful and they obey his command without question. They are 30 gypsies in the camp here who are anxious to get to St. Paul and Minneapolis to join their clans people but who must wait here for their sick king oner up petitions for his health.

There are 500 Bimbos camped in St. Paul and Minneapolis who also are descendants of their king, Miller Bimbo, and some 4,500 gypsies of the Bimbo tribe scattered throughout the United States.

The camp had a decided lazy appearance this morning. The young women and men were seated in the shade of trees around the three large tents, talking in their own language. They were decidedly curious to know what was going in the paper about them, whether it was only going to be printed in Brainerd or whether it was going to be printed in outside papers. Some wanted the story printed in the city alone, others wanted it in the St. Paul papers so the gypsies could learn of their king's condition and others didn't like the idea that anything at all was going to be said about them.

"Yes, we have travelled all over the United States" replied one of the maidens who wore a string of Brazilian coins around her neck, "our home is in Chicago, Ill. We have just returned from California where we spent the winter."

The gypsies in their travelling today are equipped with high power motor cars and trucks. There are 75 gypsy tribes in America with a population of 500,000 people, the gypsies stated.

The men stated they were copper-smiths and that some days they made as high as \$100 a day from this work.

AT U. C. T. CONVENTION

Past Senior Counselor John F. Hurley in Attendance at  
Winnipeg, Canada

John F. Hurley is attending the grand international convention of Commercial Travelers at Winnipeg as a delegate from Brainerd Council No. 545. The sessions began June 3 and high lights of the first day were the official welcome by the city of Winnipeg and the province of Manitoba, at the Royal Alexandra hotel, headquarters; and the business sessions which were held immediately after the public reception and also on Friday, June 4.

A stag banquet and smoker at the Fort Garry hotel, ladies of the U. C. T. "at Home" at the Marlborough, were held Thursday; today, a banquet and ball will be given at the Royal Alexandra hotel and tomorrow an automobile parade through the city and a luncheon at the city park with a baseball match afterwards. Canada vs the United States, will be the main attractions of the day. In addition to the above a reception was held Wednesday, for all those who came by automobile at the Emerson boundary.

First State Bank of Pequot, Closed in 1921, Declares 10 Per Cent Dividend

REALIZING ON ASSETS

Basil T. Heath, Special Attorney of State Banking Department, Makes Announcement

Important news to depositors of the First State bank of Pequot was divulged today by Basil T. Heath, special attorney of the State Banking Department, that a 10 per cent dividend is to be declared shortly, following necessary court procedure. This is the bank's first dividend.

The bank was closed on January 11, 1921 and the total amount of claims filed was \$77,081.48. The claims rejected amounted to \$3,940.55, claims reduced \$1,448.68, and claims offset \$1,564.

Preferred claims allowed amounted to \$4,637.81, claims withdrawn \$15,291.75, and general claims allowed \$50,198.69. The cash on hand at this time is \$7,372.87.

Frozen assets have been liquidated through suits, etc., some real estate has been sold and other negotiations successfully carried out, so that today the depositors will be most agreeably surprised to find that dividend No. 1 has been declared and that others may follow.

TRUNK HIGHWAYS

—GENERALLY FAIR

Minnesota trunk highways are reported as generally good, in the weekly bulletin issued by the State highway department today. Rain has affected in a few places but not enough to impede traffic except where there is construction work. In case of rain, motorists are urged to avoid No. 11 between International Falls and St. Louis county line, during construction work. Motorists between the Twin Cities and Winona are advised to go via Rochester, on account of construction work on No. 3 between Wabasha and Winona.

Detailed reports covering conditions of the so-called "Babeon roads" marked with the official yellow star, follows insofar as they refer to the Brainerd Lake Region:

RANGERS MAP FIRE AREA

Believed Forest Fires This Season Caused More Damage Than Last Year

There have been no brush fires of any consequence in the district for the last week, an indication that the season for forest fires, brush and grass fires is at an end, it was learned today at the office of the district forest ranger.

The forest rangers are at present employed mapping out the fire areas. While no report has yet been made as to the total destruction of forest fires in the district, it is believed that forest fires this season caused more damage than last year.

The general greenness of the trees and foliage prevent fires that now break out from gaining much headway. Caution of fires however will not be lifted and campers and tourists are requested to be most careful of starting fires.

BRAINERD'S ODDEST STORIES OF TODAY

County Auditor C. W. Mahlum, who is also custodian of the court house and grounds worked hard all day yesterday with the janitors, laying out the floral setting and planting the flowers in front of the court house.

After the job was completed and Mr. Mahlum was taking a last survey of his work, along comes a fellow who exclaims, "Geel! that's a nice garden the county agent is putting in!" Even the Dispatch reporter was completely fooled. She asked Mr. Mahlum what green house he was representing.

BAND CONCERT

VERY PLEASING

Dazzling Light, Good Music, Restful Location Contribute to Enjoyable Evening

THOUSAND HEAR CONCERT

Brainerd Municipal Band Appears Under Direction of Old Conductor, W. R. Miller

Dazzling lights, good music, a restful location, and close to a thousand people on the greens and in cars, was the appearance created last night at Gregory Park where the first band concert of the season there was given by the Brainerd Municipal band of which W. R. Miller is conductor.

By 8 p. m. close to a hundred cars had been parked on North Fifth street and the park greens which were in excellent condition was the scene of a promenade of hundreds of people. The benches were all filled.

At 8:05 p. m. the band played their first selection, a march, which thrilled each and every person within hearing distance. But it was not until the band played "Let's Talk About My Sweetie" that the people encircled so loudly by handclapping and the honking of horns that the band played their first encore.

"Always," that famous waltz composed by Irving Berlin made another distinctive hit with the citizens of Brainerd. The concert continued till shortly after 9:30 p. m.

Last night's band concert was the result of only one day's planning with the result that there was little advertising done, except the article in last night's Dispatch giving the program. This apparently was all that was necessary however as the attendance was very pleasing.

Until darkness intervened tennis matches were being played on the tennis courts adjoining the band stand.

No schedule has been arranged yet for dates of band concerts but it is expected that one will again be held next week.

VACATION BIBLE SCHOOL

Opens Next Monday, June 7, at First Congregational Church

Daily Vacation Bible school opens next Monday, June 7, at the First Congregational church, and will continue for two weeks every day excepting Saturday and Sunday. School begins each day at 9 o'clock and closes at 11:45, with a 30 minute recess at 10:15. Instruction will be given in Bible stories, Bible geography, Scripture and hymn memorizing and expressional activities.

Mrs. G. E. Lammon will conduct the primary department (grades 1 to 3) and the junior department (grades 4 to 8) will be in charge of Rev. N. P. Olmsted. Miss Elizabeth Folsom and Miss Dorothy Weisz will assist.

Enrollment will be limited to 50, 25 in each department, but the school is non-sectarian and is open to all children of school age who wish to enter until that limit is reached. A small fee will be charged to cover the actual expenses. The school will close on Friday, June 18 with a program and a picnic.

Beginning Monday, June 21 a similar school will be conducted for two weeks at Peoples Congregational church in Northeast Brainerd.

### STOCKS MAINTAIN GOOD TONE

New York, June 4.—(UP)—Having surpassed any previous records attained since the March-April break stocks maintained a good tone today. Numerous active issues reached new high ground on the rally.

Included in this category were several industrial leaders like United States Steel, General Motors, American Smelting and Allied Chemical, while special strength was displayed by Woolworth, Montgomery Ward and other merchandising shares.

Profit taking created slightly easier tendencies in the industrial department in the late afternoon. This development was offset, however, by activity at rising prices in rails, popular in trading circles, including Frisco,

New Haven, Rock Island and the Wash. The market closed irregular.

### ROBBERS HOLD

#### STUDENTS AT BAY

Champaign, Ill., June 4.—(UP)—Using revolvers to hold at bay 20 University of Illinois students, two robbers early today robbed a cafe in the business district and escaped in an automobile with \$100.

## Sporting Squibs

Love is not dead while the golf widow continues to polish up her husband's trophies.

One of the frailer members of the gentler sex has just set a new shot put record of 37 feet 7 3/4 inches.

Mike Walker has been head coach of the Central high school of St. Louis athletic squads for 21 years.

Francis Ward, the new world squash tennis champion, has reached the top after only one year in the game.

Of course ruling five jockeys off the turf for life has never restored any part of the sucker bettor's bank roll.

"No roughnecks permitted at boxing matches in Wisconsin"—sport headline. What do the fighters do—arbitrate?

It seems as though it would be hard for those golfing surgeons to tell whether they are slicing their shots or their patients.

Tim Lowry, captain and center on Northwestern's football team last year, will return to school next fall as assistant freshman coach.

Coach Harry Hughes, Colorado Aggies, who is a member of the football rules committee, believes the forward pass penalty will be "generally helpful to the game."

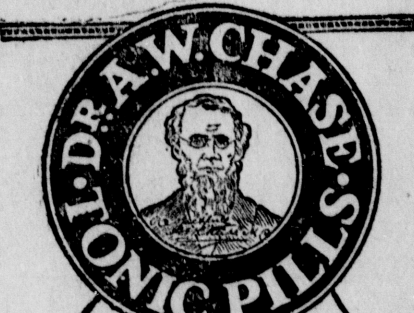

The New York Athletic club will construct its new clubhouse on the west side of Seventh avenue, between Fifty-eighth street and Central Park south. It will represent an outlay of \$7,250,000 and will be ready in 1928.

Mr. Horween, Harvard's new coach, says there will be no radical change in the system at Harvard. That is unfortunate. Many of the lovers of football were in hopes that he would at least devise a new method of losing.

## Abandon Search for Body of the Los Angeles Evangelist

Los Angeles, Cal., June 4.—(UP)—Search for the body of Aimee Semple McPherson will be officially abandoned tomorrow night, it was announced this afternoon by Mrs. Minnie Kennedy, mother of the missing evangelist.

Mrs. Kennedy and her flock, who have kept up a continuous search at the beach since Mrs. McPherson was reported drowned 18 days ago, have given up hope of finding the body, according to an official announcement to the press. An indefinite and voluntary watch will be kept, however, in the remote hope the body will ultimately be washed ashore, Mrs. Kennedy added.

## ADVOCATES PRACTICAL PSYCHOLOGY IN HOME

Atlantic City, June 4.—(UP)—Mrs. Harry A. Bgurnham of Newtonville, Mass., chairman of the division of the General Federation for Women's Clubs, in session here today, urged women to apply practical psychology in the management of the home.

With psychology a large portion of common sense should be mixed, she said.

"Wise spending is essential and a neat appearance could be maintained by the housewife to assure personal poise," she told the convention.

## SILVER LOVING CUP PRESENTED TO CONG. KNUTSON

Washington, June 4.—(UP)—A silver loving cup was presented to Representative Harold Knutson, republican, Minnesota, by the members of the house pension committee. Knutson has been chairman of the pension committee for six years and sponsored the Spanish-American war pension bill which passed this session.

## FOUR ATTEMPT TO ROB A PAY CAR

Newark, N. J., June 3.—(UP)—Four men who attempted to hold up a pay car of the Public Service Railway company here today, shot and killed Theodore Conway, paymaster of the company.

The robbery was frustrated. Several thousands dollars were in the car. A guard named Von Gynen, with Conway on the car, was wounded.

## John P. Hunt New Head Of Automotive Engineers

Frenchick, Ind., June 4.—(UP)—John P. Hunt of Detroit was nominated for president of the Society of Automotive Engineers in 1927 at the closing session of the society's summer convention here.

Nomination to office in the society is equivalent to election. Five second vice presidents were nominated. They were: Fred W. Seeder, Detroit; M. E. Max Patetti, Milwaukee; E. T. Jones, Paterson, N. J.; Charles B. Jahnke, Beloit, Wis.; and James C. Zimmerman, Madison, Wis. Charles B. Whittlesey, Hartford, Conn., was nominated for treasurer.

## High and Low German

High German is so-called because it is spoken in the hilly and mountainous midland and southern districts. Low German is spoken in the low and level northern sections.

# FEELS TWENTY YEARS YOUNGER, SAYS AAKER

## Minneapolis Man Declares Karnak Has Rid Him Of 5 Years Of As Bad Stomach Troubles As He Believes Anybody Ever Suffered.

"I tell you, Karnak has rid me from five years of as bad stomach trouble as I believe anybody ever suffered and has simply made me feel every bit of twenty years younger," declares Crist Aaker, of 13 Washington Ave., Minneapolis.

"Yes, sir, this medicine has simply made a well man of me and made life worth living again," continues Mr. Aaker. "Why, I was in such condition before I got Karnak that I could hardly eat a mouthful, for I'd get such terrible pains in my stomach it would just almost double me up. I'd get so weak I'd have to lie down."

"I had pains through my back in the region of my kidneys, my nerves were on edge all the time, and I nev-

## Legal Fraternities

The oldest legal fraternity in existence is Phi Delta Phi, which was founded in the University of Michigan in 1830. Other legal fraternities are: Delta Theta Phi, Gamma Eta Gamma, Phi Alpha Delta, Phi Delta Delta (legal women), Sigma Delta Kappa, Sigma Nu Phi.

## Early Educational Books

The horn books used in education in England from early times down to the Eighteenth century, were tablets on which were inscribed the alphabet, the nine digits, etc., and the tablets were protected by covers made of thin plates of transparent horn.
